# HAPPY BIRTHDAY, CAPRICORN

01

## **The Last Year (Temperance):**

This past year has been a masterclass in patience and moderation, Capricorn. You've faced situations that required careful navigation, teaching you how to blend seemingly opposing forces into a harmonious whole. This wasn't about quick fixes or shortcuts—it was about crafting a steady, balanced rhythm in your life. The alchemy of these experiences has left you stronger, wiser, and more grounded.

02

## **Something to Leave Behind (3 of Cups):**

This year, you're being called to reflect on your connections. While some friendships and social dynamics have brought joy and support, not all are meant to continue into your next chapter. Let go of relationships or group ties that feel stagnant or superficial. This isn't a loss—it's a necessary clearing to make room for deeper, more aligned connections. Honor the good times but don't cling to them at the expense of your growth.

03

## **A Gift to Yourself (King of Pentacles):**

This year, give yourself the gift of unwavering self-assurance. Step into your role as the master of your resources, whether financial, emotional, or spiritual. The King of Pentacles reminds you of your innate ability to build and sustain success. Invest in your goals, trust in your capabilities, and don't shy away from embracing the abundance you've worked so hard to achieve. You've earned the throne—sit on it proudly.

04

## **Something to Embrace (4 of Wands):**

Take time to savor your victories, Capricorn. The Four of Wands is a call to embrace moments of celebration and gratitude. Whether you're celebrating milestones in your career, relationships, or personal growth, these moments of joy are essential to your journey. Allow yourself to feel proud of how far you've come. The stability you've built is a foundation for even greater achievements.

05

## **The Year Ahead (Page of Wands):**

A new adventure beckons, Capricorn. The Page of Wands signals the start of an exciting chapter filled with creativity, inspiration, and boundless curiosity. This is a year to explore uncharted territory, pursue new passions, and embrace the thrill of discovery. Whether it's a creative project, a career shift, or a personal journey, approach it with the playful energy of a beginner. The possibilities ahead are as vast as your ambition.
